

Regenerative Mythology

Making Stories for Our Future

[Regenerative Mythology - "Making Stories for Our future"](#) - Inaugural Vision and Call to Action by [Willi Paul, Mythologist & Planetshifter.com](#)

"Without a felt sense of cosmology people begin to feel lost in space and abandoned in the middle of nowhere. Without a working cosmology and a regenerative mythology, life can lose its sense of purpose, causing the inevitable struggles of existence to seem completely random and pointless. It is not that a shared mythology or cosmology takes suffering out of the world, it is more that it makes us aware that everyone suffers and it gives a ground of being on which to find meaning in the troubles of the world." [- Source](#)

"A way to design, build, to share together; to experience and contribute new values to the community." - WOX

"Mythology for our generation." - WOX

Definition 1.0 -

Regenerative Mythology (RM) is a new community-oriented approach to storytelling, folklore and mythology.

"Regenerative" brings forth values that revitalize existing human and Nature resources with new visions for our evolving planet.

RM Values -

Community First
Sharing (dissolving profit-taking)
Local Food and Energy Systems
Interdisciplinary
Inclusive
Ground up
Not elitist, not academic or corporate
"From the soil"

Potential Elements of Regenerative Mythology -

Universal scope
Makers - active innovation / visioning
Journey, Initiation, Community as Hero
Nature Symbolism, Eco-Alchemy and Artifacts
Environmental and Sound Archetypes
Journey Mapping
Threat of apocalypse
Sharing in real time with social media
Future/ Sci Fi - triggered
Nature is Sacred
Permaculture and Transition Towne supported
Families and Neighborhoods as Catalysts for Change

RM Media Types -

Stories
Myths
Initiations
Rituals
Traditions
